Potential or Expected Press Stories, Significant Policy, Regulatory, or Legal Actions

Feb. 6 – Results from the first week of EPA sampling of home wells in Dimock, Pa., are expected to come in during the week of Feb. 6. These results will have to undergo quality assurance and control methodologies. EPA Region 3 will have a communications plan in place to guide the notification and release of the sampling results. Media interest in the Dimock water quality situation remains high.
